Representatives of the project study team will present information, answer questions and receive comments regarding the proposed project. The informal setting is designed to promote discussion on issues such as the purpose and need for the project, conceptual alternatives and study corridors, stakeholder issues and concerns, and future steps in the project development process. The same information will be presented at each of the three workshops. *There will not be a formal presentation – participants are encouraged to drop in at any time during the workshops.* Interested persons may also submit written comments or questions to the address below.

The NCTA is proposing to extend the Triangle Expressway to the southeast and complete the 540 Outer Loop from NC 55 Bypass near Apex to US 64/US 264 Bypass in Knightdale. Several alternatives, including improving existing roadways in the project area and constructing a new roadway, are under consideration. Several alternative corridors for a new roadway are being studied. As part of the project, NCTA will study the feasibility and impacts of developing the proposed project, in whole or in part, as a toll road.

Anyone desiring additional information may contact Ms. Jennifer Harris, Turnpike Authority, at 1578 Mail Service Center, Raleigh, NC 27699-1578, phone (800) 554-7849, or email, [southeast@ncturnpike.org](mailto:southeast@ncturnpike.org). A study area map and other project-related

information can be viewed on the project website at [www.ncturnpike.org/projects/southeast/](http://www.ncturnpike.org/projects/southeast/).

The Turnpike Authority will provide auxiliary aids and services under the Americans with Disabilities Act for disabled persons who wish to participate in the workshop. Anyone requiring special services should contact Ms. Harris by Monday, September 14, 2010, so that arrangements can be made.
